SARSAPARILLA

THE WOLLD'S GREAT REMITT FOR Barofula and Scrofulous Diseases.

From Emery Edas, a well-known merchant of Onford, Mains.

"I have sold large quantities of your Bansayamilla, but never yet one bottle which failed of the
desired effect and full antisfaction to those who took
it. As fast as our people try is, they agree there has
been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcore, Bores, and all Diseases of the Exin.

From Rev. Rols. Stratton, Bristol., Supples, "I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your Santapantilla. My daughter, aged ten, had an afflicting humor in her reve, eyes, and hair for years, which we were unable to once until we tried your Santapantilla. She has been well for some mouths."

From Mrs. Jans E. Rice, a well-buow, and much-

ence until we tried your Sarsaparilla. She has been well for some months."

From Mrs. Jane E. Rice, a wall-buow and wachesteened hely of Denniertile. Cape Mrs. Co., N. J.

My daughter has sudered for a year past with a serofulous eruption, which was very troublesome. Nothing afforded any rejief until we tried your Barsaparilla. which soon completely enrol her."

From Charles P. Cage, Esp. of the stidely bases (1994)

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolegrable affliction. I tried almost every thing a man could of both salvise and medicine, but without say relief whatever, until I took your Sarsaparitla. It immediately made my face were, as you took me it might for a time; but in a few weeks the new skin began to form under the biotehes, and continued wattl my face is as smooth as any body's, and I am without any synaptoms of the disease that I know of. I cajoy perfect health, and without a doubt owe it to four Sarsaparilla."

Erveipelas—General Debility—Purify Sie Brysipelas - General Debility - Purify Sie

Prom Dr. Hobt. Sundin, Houston St., New York.

"Dn. AYER. I seldom fail to remove Evaptions and Scrafulous Soras by the persevering use of your Sanaarantilla, and I have just now eured an attack of Malignand Erystpelus with it. No alterative we possess equals the Sahaarantilla you have supplied to the profession as well as to the people."

Prom J. R. Johnston, Ray., Witheman, Chie.

"For twelve years, I had the yellow Erystpelus ou my right arm, during which time I tried all the selebrated physicians I could reach, and mock hundreds of dollars worth of medicisms. The alcome were so bad that the cords became visitie, and the doctors decided that my arm must be suspented. I began taking your Sanaarantilla. Took two besties, and some of your Pilla. Together they have oured me. I am now as well and sound as any body. Being in a public place, my sace is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monra, M. P. P., of Nessaelle, C. W., a leading member of the Canadian Puris-"I have used your SARRAPARELLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted." St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harrey Sickler, Eag., the oble editor of the Tenthaunack Democrat, franspirance.

"Our only child, about three years of age, was stacked by pimples on his forehead. They rapidly spread until they formed a leathsome and virulent sore, which covered his face, and actually binded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, leat with them he should tear open the festering and corrupt wound which covered his whole fice. Having tried every thing else we had any hope from, we began giving your SARRAPARILLA, and applying the loddle of potash lotton, as you direct. The sore began to heat when we had given the first bottle, and was well when we had finished the second. The child's syclashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Byphilis and Mercurial Disease From Dr. Hiram Skeet, of St. Lonie, Missouri.
"I find your SARSAPARILLA a more efformal remedy for the accondary symptoms of Syphilic and for syphilitie disease than any other we pessent. The profession are indebted to you for some of the best medicines we have."

Prom A. J. French, M. D., on eminent physicism of Lourence, Muss., who is a prominent member of the Legislature of Mussechusetts.

DR. AYER. By dear Sir: I have found your Sarsapanetta an excellent remody for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

fai alterative is required."

Air. Chas. S. Fan Liese, of New Brunswick, N. J., had droadful nicers on his large, caused by the abuse of mercury, or mercurkal disease, which grew more and more augmarated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Aven's Sanarakilla reflected him. Pew cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhos, Whites, Female Weakness, are generally produced by internal Scropulous Ut-ceredium, and are very often curved by the alterative effect of this Sanaaranital. Some cases require, however, in sail of the Sanaaranital, the skilful application of local remedies.

Prom the well-in men and widely celebrated Dr. Jacob Morrill, of Cincinnati.
"I have found your Sanaarantiala an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhom, Internal Ulceration, and local debility, arising from the aerofalous disthesis, have yielded in it, and there are few that do not, when its effect is properly aided by local treatment." A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Lencorrion of long standing, by two bottles of your BARSAPABILLA." Bheumatism, Gout, Liver Complaint, Dys-popels, Heart Disease, Neuralgia,

whon caused by Scrofule in the system, are rapidly sered by this Ext. Samarantial.

AYER'S CATHARTIC PILLS purgatives in the market, and their superio virtues are so universally known, that we need net do more then to assure the public their quality is maint sined equal to the test it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co.,
Lovell, Marr, and sold by

call SCHOTULA luri in the constitutions itudes of men. It either produces or le produced by an en-feebled, vitiated state of the blood, wherein

competent to sustain igorous action, and The scrofulous contamination is vadecay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubereles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the bloed. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrafulous disease.

Ayer's flarsaparilla

Ayer's Sarsaparilla

Ayor's Barsaparilla

is compounded from the most effectual antidotes that medical science has discovered for
this afflicting distemper, and for the cure of
the disorders it entails. That it is far superior to any other remedy yet farised, is
known by all who have given it a tail. That
it does combine virtues truly entancedinary
in their effect upon this class of complaints,
is indisputably proven by the great multitude
of publicly known and remarkable cures it
has made of the following diseases: King'o
Evil, or Glandular Swellings, Tumors,
Eruptions, Pimples, Blotches and Scree,
Erysipelas, Rose or St. Anthony's Fire,
Salt Rheum, Scald Head, Coughs from
tuberculous deposite in the lungs, White
Swellings, Debility, Dropsy, Meuralgia,
Dyspepsia or Indigestion, Syphilis and
Syphilitic Infections, Mercurial Diseases,
Female Weaknesses, and, indeed, the whole
series of complaints that arise from impurity
of the blood. Minute reports of individual
cases may be found in Avan's Assencar
Atmanac, which is furnished to the druggists
for gratuitous distribution, wherein may be for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have seece. 'a some one who can speak to him of its benefits from personal experience. Berofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of ATER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the test of Narsaparilla in alterative power. By im aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By in peculiar virtues this remedy stimulates the vital

functions, and thus expels the distempers which lurk within the system er Luret out on any part of it. We know the juille have been deceived by many compounds of Saraparillo, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abondant trial, and there remains no question of its surpassing excellence for the cure of the sflicting diseases it is intended to reach. Although under the same same, it is a very different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been

available to them. AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done. Prepared by Dr. J. C. Aven & Co.,
Practical and Analytical Chemists,
Lowell, Mass.
